

REMARKS

Claims 10, 14 and 21 have been amended. Claims 26-31 which were directed to a nonelected invention have been canceled. Claims 32-34 have been added. No new matter has been added. Support for the amendments can be found in the Specification and claims as originally filed.

The Title and Abstract have been amended to describe the claimed invention.

In the Office Action, the Examiner indicated that claims 13-14, 19-21, and 25 would be allowable if rewritten in independent form. The Applicants have amended claim 10 to include the limitation of claim 13 and have rewritten claim 21 in independent form. Since newly amended claim 10 corresponds to claim 13 written in independent form, the Applicants respectfully assert that newly amended claim 10 is now allowable. In addition, the Applicants respectfully assert that the remaining dependent claims are allowable as they depend either directly or indirectly from allowable claims 10 or 21.

In view of the foregoing amendment, it is believed that the Examiner's rejections have been overcome and that the application is in condition for allowance. Such action is earnestly solicited.

Respectfully submitted,

/RFCIark/
